IMMUNIZATION POLICY

IMMUNIZATION POLICY

1. All nursing students are required to complete the recommended immunizations as prescribed prior to clinical posting or coming in contact with patients/clients.
2. Students are required to submit the proof of immunizations before health check up / starting clinical posting.
3. Students who do not complete recommended immunizations in time will not be sent for clinical posting.
4. Students who are allergic to any vaccines / immunizations are contraindicated need to submit the medical certificate as a proof for not being immunized.
5. Additional immunizations may be required in case of any disease outbreaks.
6. Students who are applying for international clinical experiences / willing to work abroad shall meet the immunization requirements for the destination country.
7. The applicable costs of immunization are the responsibility of individual student.
8. Students must inform their supervisors about the immunization status in relevant clinical situations.
9. Students shall inform their faculty if they are suffering from any diseases at the time of immunization.
10. All students shall support the prevention and control of transmission of infectious diseases by supporting immunization programs.
