Day 1:

The hallmark of the new curriculum framework is the flexibility for the students to choose courses across various branches . Add-on courses are short-term training programs that are designed to supplement the core curriculum of a degree program. These courses provide students with additional skills and knowledge that are relevant to their field of study. The certificate programme on developmental and behavioural pediatrics is organized by the department of child health nursing for the academic enrichment of students. On 19/04/2024 Dr Parvathy Mohan, Professor, Child development centre taken an orientation session on developmental and behavioral pediatrics. The session was informative and focused on various developmental problems and management. 50 students were attended the session. She also encouraged ongoing education and support for parents, teachers, and healthcare providers to stay informed about the latest research and best practices in managing behavioural pediatrics . The class underscored the value of compassion, patience, and tailored interventions in supporting children with these behavioral problems.

Day 2:

Department of Child Health Nursing organized an add on course for fifth semester BSc Nursing on 30/05/24 on management of children with behavioral problems focusing on Cerebral Palsy , Learning Disability such as Dyslexia ,Intellectual Disability such as Attention Deficit Hyperactivity Disorder (ADHD) and Autism Spectrum Disorder (ASD). Dr.Parvathy Mohan, Professor, Child Development Centre ,conducted an informative and comprehensive class on the above. Elna A S welcomed the gathering and Sneha N Saji

thanked her for the session. The session summarizes the definitions, symptoms, diagnosis, and management strategies for these conditions.

Dr. Parvathy Mohan stressed the importance of early detection & prevention of the risk factors of the conditions and effective management through therapies. Also, she enlightened us with the working of Child Development Centre in Amala Institute of Medical Sciences and the management of children they receives. She added successful management requires collaboration among healthcare providers, educators, and families with children with disabled. In addition, each child requires a personalized treatment plan that addresses their unique needs and strengths. Emphasis on building strong support systems at home and school to facilitate consistent and effective management. She provided a thorough understanding of Cerebral Palsy, Learning and Intellectual Disability, highlighting the causes and complexities of these conditions and the importance of comprehensive management strategies. Early diagnosis, individualized treatment plans, and a supportive environment are essential for helping children with these conditions achieve their full potential.

She also encouraged ongoing education and support for parents, teachers, and healthcare providers to stay informed about the latest research and best practices in the management. The class underscored the value of compassion, patience, and tailored interventions in supporting children with these behavioral problems.

Day 3:

Department of Child Health Nursing organized an add on course for fifth semester BSc Nursing on 31/05/24 at 2pm. Dr. Riya Lukose Associate Proffessor, Developmental Paediatrician, Department of Paediatrics conducted an informative and comprehensive class on various behavioral problems in children focusing on Attention Deficit Hyperactivity Disorder (ADHD) and Autism Spectrum Disorder (ASD). Neethu Benny welcomed the gathering and Esther Biju delivered vote of thanks for the session. The session summarizes the definitions, symptoms, diagnosis, and management strategies for these conditions.

The session enriched with the importance of early detection and intervention for both ADHD and ASD to improve long-term outcomes. She added successful management requires collaboration among healthcare providers, educators, and families. In addition each child requires a personalized treatment plan that addresses their unique needs and strengths. Emphasis on building strong support systems at home and school to facilitate consistent and effective management.
