REPORT ON ENVIRONMENT DAY CELEBRATION

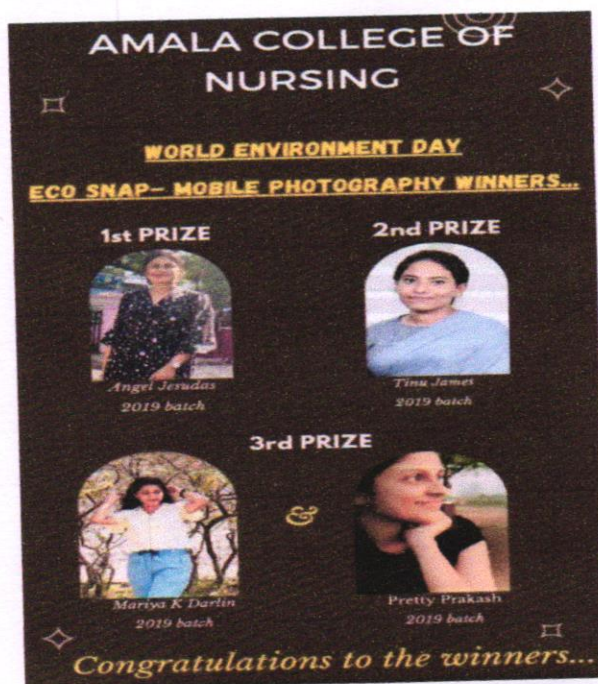

As part as a part of world environment day celebration NSS volunteers organized Garden renovation, kubili knaji and eco sanp competition and Green miles. They have highlighted the theme in posters and presented the theme on June 5TH 2023. During the week students cleaned the campus, planted saplings over the campus, garden renovation. They have made a concept that walking through the green campus as a regular activity. This will bring in more attachment and commitment to their own green camps and to maintain the greenery. The idea is most welcomed by the management and appreciated for the same.

They also conducted various competitions which is related to increase the bonding with environment. NSS volunteers also suggested to use the leaves for having Kanji. As it is practiced in olden days, they wanted to realize and bring back those olden good habits. The lunch is arranged with kubili kanji one day during the same week. All students enjoyed the day. Also one of the student grabbed 3rd prize for participating in NYK YUVA photography competition in related to environment day. The programme was a great success.

REPORT ON NATIONAL POLLUTION CONTROL DAY CELEBRATION

In commemoration of National Pollution Control Day, the NSS Unit of Amala College of Nursing, Thrissur, organized a thoughtful and engaging event on December 2, 2023. The objective of the event was to raise awareness about the detrimental effects of pollution on the environment and public health and to promote the significance of pollution control measures.

Rally: The event kicked off with a spirited rally led by the NSS volunteers. The participants, adorned with placards and banners bearing messages on pollution control, marched through the streets of Thrissur. The rally aimed to capture the attention of the community and convey the urgency of adopting eco-friendly practices to combat pollution.

Theme Presentation: Following the rally, a theme presentation took place at the Amala College of Nursing campus. The presentation addressed various aspects of pollution, including air, water, and soil pollution, and emphasized the importance of individual and collective efforts in pollution control. The NSS volunteers showcased innovative solutions and practical steps that individuals and communities could take to contribute to a cleaner and healthier environment.

Community Engagement: The event fostered community engagement by encouraging interaction between NSS volunteers and the local residents. Informational pamphlets and materials were distributed to educate the community on the adverse effects of pollution and the role each person can play in mitigating these effects.

The National Pollution Control Day celebration organized by the NSS Unit of Amala College of Nursing, Thrissur, successfully combined awareness-building activities with community engagement. The rally and theme presentation served as effective means to convey the message of pollution control to a broader audience. By involving the community in these initiatives, the event not only raised awareness but also inspired collective action toward a cleaner and more sustainable environment. The NSS volunteers and organizers deserve commendation for their dedication to the cause of pollution control and their efforts to make a positive impact on the community.

Report on Earth Day Celebrations

Earth Day, celebrated annually on April 22nd, is a global event aimed at raising awareness about environmental issues and promoting actions to protect our planet. This year, the NSS Volunteers organized a series of engaging programs to commemorate Earth Day and inspire environmental stewardship among the community.

Theme Presentation:

The Earth Day celebrations began with a theme presentation highlighting the importance of environmental conservation and sustainable practices. The presentation explored key themes such as climate change, biodiversity loss, and pollution, emphasizing the urgent need for collective action to address these challenges. Attendees gained insights into the impacts of human activities on the environment and were encouraged to adopt eco-friendly habits in their daily lives.

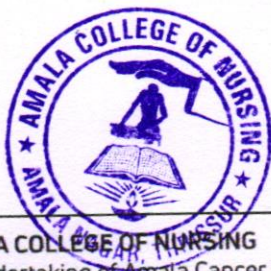

Caption Writing Competition:

Following the theme presentation, a caption writing competition was held to encourage creative expression and reflection on Earth Day themes. Participants were tasked with crafting compelling captions that captured the essence of environmental conservation and inspired positive change. Entries were judged based on originality, relevance, and impact. The competition provided a platform for individuals to share their perspectives on environmental issues and fostered a sense of community engagement.

Online Quiz:

In addition to the theme presentation and caption writing competition, an online quiz was conducted to test participants' knowledge of environmental sustainability and conservation efforts. The quiz featured questions on various topics such as renewable energy, waste management, and conservation initiatives. Participants had the opportunity to demonstrate their understanding of environmental issues while competing for prizes and recognition. The quiz served as an interactive learning tool, reinforcing key concepts and promoting environmental literacy.

The Earth Day celebrations organized by the NSS Volunteers provided a meaningful opportunity for individuals to come together and reaffirm their commitment to environmental protection. Through engaging programs such as the theme presentation, caption writing competition, and online quiz, participants were inspired to take action and make a positive difference for the planet. The event underscored the importance of collective efforts in addressing environmental challenges and building a sustainable future for all.

Report on World Malaria Day

World Malaria Day, observed annually on April 25th, is a global event aimed at raising awareness about malaria prevention and control. Students organized a series of meaningful activities to commemorate World Malaria Day and highlight the importance of combating this infectious disease.

Theme Presentation:

The World Malaria Day celebrations commenced with a theme presentation held at [Location]. The presentation focused on raising awareness about malaria, its transmission, symptoms, and prevention measures. Attendees learned about the global burden of malaria and the significance of sustained efforts in malaria control and elimination. The presentation emphasized the theme of this year's World Malaria Day and underscored the importance of community engagement in malaria prevention strategies.

Mosquito Repellent Garden Making:

Following the theme presentation, a hands-on activity of creating a mosquito repellent garden was organized at L.F Hostel, Chittilapally. Participants, including students and volunteers, worked together to design and plant a garden featuring mosquito-repellent plants such as citronella, lavender, and marigold. The garden aimed to serve as a natural deterrent to mosquitoes and promote sustainable mosquito control methods. The activity provided an opportunity for participants to learn about the importance of biodiversity in mosquito control efforts and to contribute to creating a healthier environment in their community.

Inauguration:

The culmination of the World Malaria Day celebrations was the inauguration of the mosquito repellent garden at L.F Hostel, Chittilapally. The event, held at 7:00 AM, was attended by [number] of participants, including students, faculty members, and local community members. A brief ceremony was conducted to mark the occasion, during which the significance of the mosquito repellent garden in malaria prevention efforts was highlighted. [Key figures or dignitaries] delivered speeches emphasizing the importance of collective action in the fight against malaria and commending the efforts of all involved in the initiative. The inauguration ceremony symbolized a commitment to promoting health and well-being in the community and served as a reminder of the ongoing battle against malaria.

The World Malaria Day celebrations organized by [Organizing Body] provided a platform for raising awareness about malaria and mobilizing action towards its prevention and control. Through engaging activities such as the theme presentation and mosquito repellent garden making, participants were empowered to contribute to malaria elimination efforts and create a healthier environment for all. The inauguration of the mosquito repellent garden marked a significant step
