REPORT ON SIMULATION DEMO/ TRAINING FOR FACULTY ON MULTIFUNCTIONAL PEDIATRIC NURSING MANNIKIN AND CPR

DATE: 27/06/24

VENUE: AMALA BOULEVARD

TIME: 12:00N

Amala college of nursing is having a well-established simulation and departmental labs which is designed to provide an immersive learning experience for the faculty. On 27/07/24 Emergi Care trauma and life support services provided a demo session on pediatric Nursing manikin and CPR. Faculty from various department in college of nursing were attended the demo session. The session was highlighted on various demonstrations like Pediatric Life Support, resuscitation, Gastric lavages for the children under 5 years of age. The manikin were highly designed with the anatomical features of the five year old child specializing in child care training. The manikin were highly functioning features such as tracheostomy care, airway management, general skin care, IV Infusion, Injections, CPR etc. The demo session was very effective and the faculty apply their theoretical knowledge in carefully created hands on scenario that mimic various clinical situations. The session was winded up at 2pm followed by feedback and doubt clarification.

REPORT ON SIMULATION DEMO / TRAINING FOR FACULTY ON DELIVERY/ MATERNAL AND NEONATAL EMERGENCY SIMULATOR

Date : 28/05/24 & 30/05/24

Time : 2.00 pm

Venue: Amala Boulevard

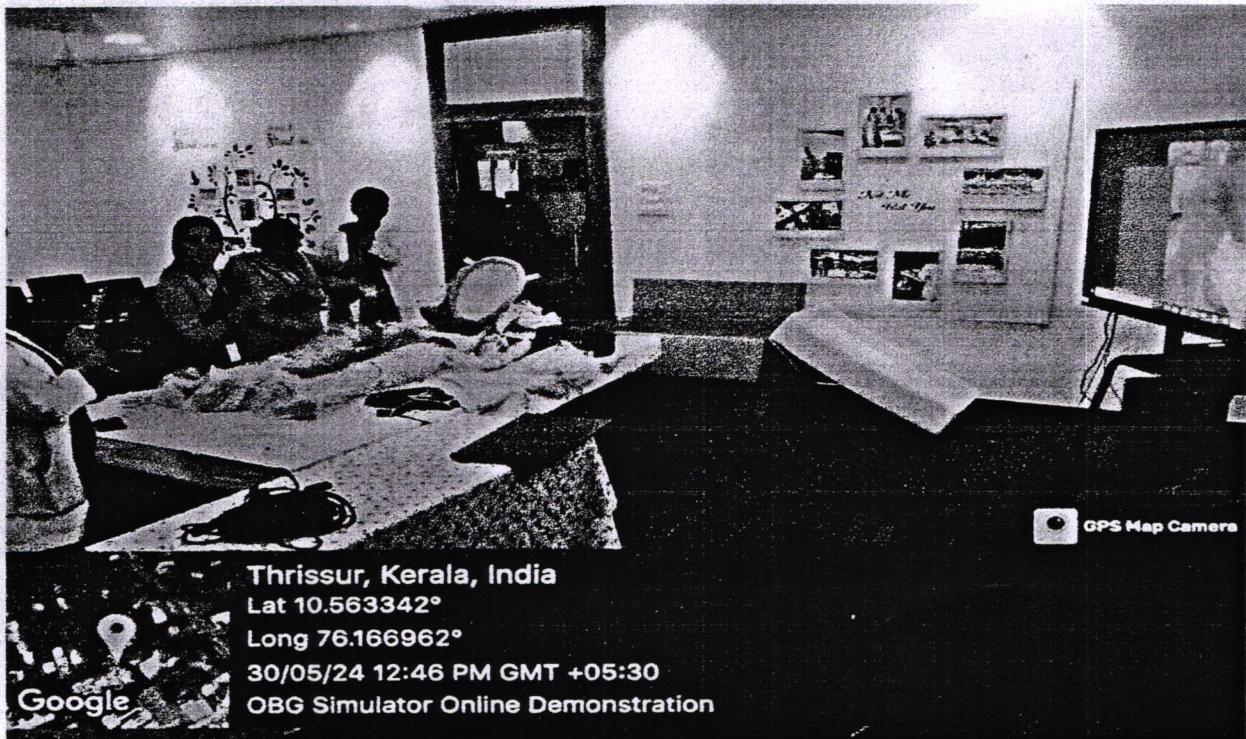

Simulation constitutes a teaching method and a strategy for learning and understanding theoretical knowledge and skills in the nursing and medical field. Amala college of nursing is having a well established simulation and departmental labs which is designed to provide an immersive learning experience for both faculty and students. On 28/05/24 and 30/05/24 Dynamic Tracom provided an exclusive online demo session on Maternal and Neonatal Emergency Simulator Training for the faculty. Faculty from Department of OBG and Child Health Nursing were attended the demo class. The session was highlighted on various demonstration like prenatal nursing for pregnant women and fetal and postnatal nursing for mother and newborns. The mannequin were highly functioning features such as automatic birthing system, CPR of pregnant women and newborn. The demo session was very effective and the faculty apply their theoretical knowledge in carefully created hands-on scenarios that mimic various clinical situations. The session was winded up at 4.00 pm followed by clearing the doubts.
